SUMMARY

Dedicated Computer Science and Engineering graduate with strong problem-solving, analytical and communication skills. Adaptable and quick to learn new technologies with the ability to work effectively both independently and in collaborative team environments. Committed to continuous learning, professional growth and delivering high-quality results. Eager to contribute to organizational success while building a long-term career in the technology industry.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, React-Bootstrap, MaterialUI, Chakra- UI, Shadcn

Backend: Node.js, Express.js

Database: MongoDB

Languages: JavaScript, TypeScript, C, C++, Java, Python

Tools: VSCode, Figma, Framer, Jira/Trello, Github, Postman, IntelliJ IDEA, Pycharm, Arduino, Cisco

EDUCATION

Bachelor of Science in Computer Science and Engineering

January 2020 - June 2026

United International University

United City, Madani Ave, Dhaka, Bangladesh

CGPA - 2.49

PROJECTS

Orpon – Donation Transparency Platform (Team Contributor)

[GitHub Link](#)

- Collaborated with a development team to build a full-stack donation transparency platform for secure online fundraising.
- Developed responsive and reusable frontend interfaces using React.js, Vite, and Tailwind CSS.
- Implemented campaign pages, authentication, donation workflow, and role-based dashboard interfaces.
- Integrated frontend components with RESTful APIs and collaborated with backend developers to ensure a seamless user experience.

Tech Stack: React.js, Vite, Tailwind CSS, React Router, JavaScript, Node.js, Express.js

UIU Health Care - Student Healthcare Support Web Application

[GitHub Link](#)

- Developed a full-stack student healthcare support web application with secure authentication and role-based User/Admin dashboards.
- Implemented Emergency SOS, First Aid Guidelines, Mental Health Support, Health Awareness, Nearby Hospital Information, and Google Maps integration.
- Built RESTful APIs using Node.js and Express.js with MongoDB for data management.

Tech Stack: React.js, TypeScript, Tailwind CSS, Vite, Node.js, Express.js, MongoDB, React Router, Google Maps API.

THESIS / RESEARCH WORK

Agricultural Soil Nutrient Analysis, Classification and Crop Suitability Prediction Using Machine Learning

[GitHub Link](#)

Undergraduate Thesis

- Developed a machine learning-based system for soil nutrient analysis, soil classification, and crop suitability prediction using Python and Scikit-learn.
- Performed data preprocessing, exploratory data analysis (EDA), feature engineering, and visualization on agricultural soil datasets.
- Evaluated multiple machine learning models, including Random Forest, SVM, KNN, Logistic Regression, Naive Bayes, Gradient Boosting, and Extra Trees Classifier.
- Achieved 96.42% classification accuracy using an optimized Random Forest model with 10-fold cross-validation and comprehensive performance evaluation.

Technologies: Python, Scikit-learn, Pandas, NumPy, Matplotlib, Jupyter Notebook

VOLUNTEER EXPERIENCE

Bangladesh Scouts	2011 - 2017
Senior Scout	
• Participated in national and regional scout camps, developing teamwork, leadership, and communication skills. • Led group activities and collaborated with team members to achieve shared objectives. • Completed training in discipline, emergency response, and basic first aid. • Demonstrated responsibility, problem-solving, and organizational skills through scouting activities.	

LANGUAGE

Bengali – Native Proficiency
English – Professional Working Proficiency
